When you are looking for an honest, fair, responsible person to build your office and remain engaged in your dental practice as a consultant and a friend, Bob Mothershead is the person you need. He has been active in my office since 1987 when I started my practice in Bakersfield, CA. He was and remains instrumental in keeping us up to date in equipment. Today, I feel, thanks to Bobs' help, that I have a practice that is state of the art and patients are grateful for the advances we've made.
