Bob Mothershead
Patterson Dental
Equipment and Design Specialist

Dear Bob,

It is hard to believe we are well into our second year in the new office. In reflecting back on the transition into our new location, I realize saying thank you is long overdue. Your support in the design, assistance in selecting equipment for and helping us pair with a competent contractor for construction of the new facility, were unbeatable. I can't imagine the process having gone much smoother when I had no prior experience in this process. You made a fairly overwhelming process seamless.

Now that we are well established in this location, it is easy to see how the improved space use has led to a more efficient and productive business. We have a tremendous increase in space, and overhead has been reduced. Patients comment almost every day that this is the nicest medical/dental facility they've ever visited. I think that is a tribute to your expertise, and again, I am truly thankful to have been blessed by your influence in the construction of my new office. I look forward to practicing in this location for the duration of my career, but if we have the good fortune to need to expand, you'll be the first person I call. Thanks again!

Sincerely,

Andrew C. Dreyer, DDS, MS
