TESTIMONIAL:

Bob Mothershead has been an integral part of the success I have been able to achieve over a 30 year long career as a practicing reconstructive/cosmetic dentist in the Los Angeles area. In the early years, it was all about advice on dental equipment. As all practices move forward, the expansion phase of one's career evolves. That is when Bob played his greatest role, in the design and development of a new dental practice facility. From the initiation of architectural plans, to the day in and day out specifics of the build out, working with the general contractor and subcontractors multiple times per week at the actual job site, to the selection of equipment, there is nobody better than Mr. Mothershead. His dedication and understanding of the "entire" process, through years of experience, and a genuine concern for the doctor's well being, makes this equipment specialist a leader in his field.
